

April 1, 1959

Dr. Hermann Kunst

Dear Dr. Kunst:

My brother has asked me to thank you kindly for your letter of March 16, 1959, and wishes me to express to you and to Dr. Dibelius, whose letter of March 11, 1959, he has read with great care, his appreciation for your kind expressions in connection with his illness.

He also asked me to tell you that he is following closely the important events to which both your letters address themselves, and wishes to assure you of the firm determination in this country to meet the challenge which Communism has presented to the Free World, and to our common Christian faith, in the present Berlin crisis.

Faithfully yours,

Allen W. Dulles
